

USG Ballot

Candidates for Campus/Center Student Leaders to represent Racine/iMET

Hi, my name is **Ashley Galligan** and I'm running for student government office on the Racine campus. This is my fourth semester at Gateway Technical College, I'm in the Culinary Arts program. Right now, I'm in the culinary club and student life. This year I've worked as a student life peer advocate. With being a student life peer advocate, I helped plan and work events that happened on both the Kenosha and Racine campus during the school year.

- Bingo
- Gateways days
- Balling bracket
- Hop into spring
- Monster mash
- Speaker events
- High school visits
- Raised money for Breast cancer
- Raised money for Special Olympics
- Hiding golden snitches
- Handing out harry potter stuff animals
- Handing out stuff animals for Valentine's day
- Veteran's honor event
- The Mystical Arts of Tibet
- Zero shades of gray

With working these events it has given me ideas on what would be in the best interest of the student body on all campuses. Seeing what students like from the events that have gone on in the past and what could change from the event. Also, to see what new ideas for events we could do for the upcoming year. I want to help students to have a voice in what goes on campus.

Delroy Guenther

Excited to join the United Students Government to share my ideas with a team of people whose focus is to better education for its students by providing more learning/building opportunities. Also adding diversity which complements and comprehends different students likes and dislikes from a different perspective.

USG Ballot

Candidates for Campus/Center Student Leaders to represent Racine/iMET

My name is **Angela Jones** but I liked to be called Angie. I have been a student at Gateway Technical College for 2 years and I'm enrolled in the Human Services Program. I'm a mother of 3 girls ages 16, 12, and 3. My hobbies are cooking, eating (I really enjoy good food), bowling (which I'm not that good at), reading, traveling and shopping to name a few. I enjoy meeting new people, learning about different cultures, and helping those in their time of need. I would like to be an officer in USG for several reasons. I'm passionate about Gateway and the opportunities that they provide their students in the community in which each campus is located. I would like to provide new and current students with the tools and resources that they need in order to be successful on their educational journey. I want to be a member of a team in which their number one priority is the students and their success. As a member of USG I would always strive to provide students with a helping hand and a smile to help brighten up their day and encourage them along when times get tough. I'm willing to provide my input and resources in order to provide the students of Gateway with fun and innovative activities in which they learn, grow and enjoy themselves. I promise to always put my best foot forward when performing all duties related to my position by always keeping the students opinions, desires, and ideas at the forefront. Thank You for reading my statement and I look forward to serving you as a member of USG.

Best of luck on your educational journey!

Fellow Students,

I submit this statement, as a possible candidate for the United States Government board, as your fellow classmate. My name is **Emma Widmar** and I am a Freshman studying Professional Communications. The USG presents a clear vision to work to provide a voice and represent the student body. On the behalf of my experiences and involvement, I would work to advocate and provide a united community. I believe that alone, I can do some, but together with the Gateway Technical College community we are unstoppable.

I am a Racinian, who has dedicated large amounts of time and efforts for the state. I currently hold the position as a director at Recreational Activities for Developmentally Disabled. I have experience with Planned Parenthood, Youth Empowered in the Struggle, Key Club, March for Our Lives-Wisconsin, Mighty-Well, Love Your Melon and Aerie Apparel. It is important that we create a well-rounded environment that includes all individuals. As someone with a disability myself, I can be depended to provide equal and welcoming environment.

As a woman of resilience, I understand there are difference of ideas and opinions, but that will not separate the college therefore only in my vision empower us. Through the student body, I would like to use my voice to advocate for what is best for the environment. I encourage you to consider myself for the position so that together we can create what is best for Gateway Technical College.
