Credit for Prior Learning

Experience Pays! You've been there . . .
You've done that . . . Let us give you credit for it!

Gateway Technical College recognizes you have knowledge and skills gained through previous educational, life and work experiences. We want to help you receive credit for those experiences—saving you time, money and helping you enter your new career more quickly.

There are various ways to earn credit including Degree Course Substitution, Prior Learning Assessment and Transfer Credit. Credit for Prior Learning opportunities for this program include:

101-104 Income Tax Accounting

101-106 Accounting Spreadsheet Apps

101-114 Accounting Principles

101-119 Payroll Accounting

101-128 QuickBooks Online

For more information visit gtc.edu/cfpl or contact the Registrar's Office at cfpl@gtc.edu or 262-564-2162.

Earn College Credit in High School

Get an edge by earning college credit before you graduate and save money at the same time.

There are many ways to earn college credit while you're still in high school, including transcribed and advanced standing credit, Start College Now and youth apprenticeship. Suggested courses to take in high school for this program include:

101-104 Income Tax Accounting

101-106 Accounting Spreadsheet Apps

101-114 Accounting Principles

101-119 Payroll Accounting

101-128 QuickBooks Online

103-143 Computers for Professionals

For more information on earning college credit in high school connect with your high school counselor or the Gateway New Student Specialist at your high school. Visit gtc.edu/highschool.

Previous Credit

There are many opportunities, both in high school and through previous college, work, and/or military experience, to earn credit at Gateway.

For more information about earning credit in high school and opportunities for credit for prior learning, please see reverse side.

Sponsor

Finding an apprenticeship is very similar to a typical job search. Apprenticeship openings are sometimes listed online job search sites. Often, your best opportunities for apprenticeship are the opportunities you create yourself - by seeking out an employer who is willing to hire you as an apprentice. Apply directly to the employer's personnel or hiring office.

In some cases, you may need to start work at an unskilled position before being considered for an apprenticeship at the same company. Many companies have apprentice entrance procedures that limit apprenticeship openings to workers already employed in their current workforce.

AND

Paid Related Instruction

An employment opportunity is the most basic requirement for any apprenticeship. Without a job, there is no "on-the-job training" which represents 90 percent of the program.

Related instruction is another key part of each apprenticeship and is required by the State of Wisconsin apprenticeship law. Apprentices are paid to attend related theoretical and technical classroom instruction provided by Gateway Technical College.

Training lasts for five years, consisting of at least 5,400 hours of on-the-job training with a minimum of 440 hours of classroom instruction.

Skilled Professional

Apprentices who complete the terms of their apprenticeship contract receive a valuable training opportunity and nationally recognized portable credential without leaving the workforce.

Skilled professionals in this trade can expect to earn a median income of:
\$24.94 per hour
\$51,875 annually

Next Steps

Gateway offers additional educational opportunities related to this career pathway, including:

Technical Studies - Journeyworker Associate of Applied Science (AAS) Degree

The Technical Studies - Journeyworker program is geared for those who possess a Wisconsin journey-level certificate from an apprenticeship program that included a minimum of 400 hours of related instruction (PRI). Students can customize an associate degree designed to meet their individual needs while receiving up to 39 advanced-standing credits in the Technical Studies - Journeyworker program.

Previous Credit

There are many opportunities, both in high school and through previous college, work, and/or military experience, to earn credit at Gateway.

For more information about earning credit in high school and opportunities for credit for prior learning, please see reverse side.

Sponsor

Finding an apprenticeship is very similar to a typical job search. Apprenticeship openings are sometimes listed online job search sites. Often, your best opportunities for apprenticeship are the opportunities you create yourself - by seeking out an employer who is willing to hire you as an apprentice. Apply directly to the employer's personnel or hiring office.

In some cases, you may need to start work at an unskilled position before being considered for an apprenticeship at the same company. Many companies have apprentice entrance procedures that limit apprenticeship openings to workers already employed in their current workforce.

AND

Paid Related Instruction

An employment opportunity is the most basic requirement for any apprenticeship. Without a job, there is no "on-the-job training" which represents 90 percent of the program.

Related instruction is another key part of each apprenticeship and is required by the State of Wisconsin apprenticeship law. Apprentices are paid to attend related theoretical and technical classroom instruction provided by Gateway Technical College.

Training lasts for two years, consisting of no less than 1,712 hours of on-the-job training with a minimum of 288 hours of classroom instruction.

Skilled Professional

Apprentices who complete the terms of their apprenticeship contract receive a valuable training opportunity and nationally recognized portable credential without leaving the workforce.

Skilled professionals in this trade can expect to earn a median income of:
\$15.90 per hour
\$33,072 annually
*Based on locally reported wage data.

Students who successfully complete this program are prepared to take the State of Wisconsin Barbering exam.

Next Steps

Gateway offers additional educational opportunities related to this career pathway, including:

- Barber/Cosmetology Instructor Certification Courses (150 hours)

Have questions or need assistance with getting started?

Gateway's Apprenticeship department is ready to help. Call 262-564-2954 or email apprenticeship@gtc.edu to make an appointment. Or visit us online at gtc.edu/apprenticeship.

Equal Opportunity/Access/Employer and Educator • Igualdad de oportunidades/Acceso/Empleador y educador • 2022-LL

Previous Credit

There are many opportunities, both in high school and through previous college, work, and/or military experience, to earn credit at Gateway.

For more information about earning credit in high school and opportunities for credit for prior learning, please see reverse side.

Sponsor

Finding an apprenticeship is very similar to a typical job search. Apprenticeship openings are sometimes listed online job search sites. Often, your best opportunities for apprenticeship are the opportunities you create yourself - by seeking out an employer who is willing to hire you as an apprentice. Apply directly to the employer's personnel or hiring office.

In some cases, you may need to start work at an unskilled position before being considered for an apprenticeship at the same company. Many companies have apprentice entrance procedures that limit apprenticeship openings to workers already employed in their current workforce.

AND

Paid Related Instruction

An employment opportunity is the most basic requirement for any apprenticeship. Without a job, there is no "on-the-job training" which represents 90 percent of the program.

Related instruction is another key part of each apprenticeship and is required by the State of Wisconsin apprenticeship law. Apprentices are paid to attend related theoretical and technical classroom instruction provided by Gateway Technical College.

Training lasts for five years, consisting of at least 2,000 hours of on-the-job training with a minimum of 144 hours of classroom instruction.

Skilled Professional

Apprentices who complete the terms of their apprenticeship contract receive a valuable training opportunity and nationally recognized portable credential without leaving the workforce.

Skilled professionals in this trade can expect to earn a median income of:
\$24.68 per hour
\$51,334 annually

Students who successfully complete this program are prepared to take the CompTIA A+ certification exam.

Next Steps

Gateway offers additional educational opportunities related to this career pathway, including:

IT-Computer Support Specialist Associate Degree (61 credits)

IT-Computer Support Technician Technical Diploma (31 credits)

Have questions or need assistance with getting started?

Gateway's Apprenticeship department is ready to help. Call 262-564-2954 or email apprenticeship@gtc.edu to make an appointment. Or visit us online at gtc.edu/apprenticeship.

If you are interested in the construction trades, your application process begins with contacting the Local Trade Committee for your selected occupation. In most cases, you will complete an application form and submit it directly to the Local Trade Committee.

There are more than 100 Local Trade Committees in Wisconsin and each uses a structured application and selection process. This process typically requires testing in aptitude, math and science. Qualified applicants must also pass an interview process.

AND

Paid Related Instruction

An employment opportunity is the most basic requirement for any apprenticeship. Without a job, there is no “on-the-job training” which represents 90 percent of the program.

Related instruction is another key part of each apprenticeship and is required by the State of Wisconsin apprenticeship law. Apprentices are paid to attend related theoretical and technical classroom instruction provided by Gateway Technical College.

Training lasts for four years, consisting of no less than 7,428 hours of on-the-job training with a minimum of 576 hours of classroom instruction.

Skilled Professional

Apprentices who complete the terms of their apprenticeship contract receive a valuable training opportunity and nationally recognized portable credential without leaving the workforce.

Skilled professionals in this trade can expect to earn a median income of:
\$30.85 per hour
\$64,168 annually

Students who successfully complete this program are prepared to take the State of Wisconsin Journeyworker Plumbing Exam.

Next Steps

Gateway offers additional educational opportunities related to this career pathway, including:

Technical Studies - Journeyworker Associate of Applied Science (AAS) Degree

The Technical Studies - Journeyworker program is geared for those who possess a Wisconsin journey-level certificate from an apprenticeship program that included a minimum of 400 hours of related instruction (PRI). Students can customize an associate degree designed to meet their individual needs while receiving up to 39 advanced-standing credits in the Technical Studies - Journeyworker program.

Have questions or need assistance with getting started?

Finding an apprenticeship is very similar to a typical job search. Apprenticeship openings are sometimes listed online job search sites. Often, your best opportunities for apprenticeship are the opportunities you create yourself - by seeking out an employer who is willing to hire you as an apprentice. Apply directly to the employer's personnel or hiring office.

In some cases, you may need to start work at an unskilled position before being considered for an apprenticeship at the same company. Many companies have apprentice entrance procedures that limit apprenticeship openings to workers already employed in their current workforce.
