

# Apprenticeship: OSHA 30 Course

## OSHA 30

### Course # 449-401A

In this course construction contractors and/or their company representative will:

- Be informed of rights and responsibilities under OSHA (Occupational Safety & Health Administration).
- Learn how to comply with these rights and responsibilities to provide a safer and healthier work environment for employees.

After participating in this course the contractor (foreman or other company representative) will be in compliance with **OSHA standards (29 CFR 1926)** for construction.

Upon completion of this course, the participant will be able to demonstrate safe working practices. The participant will have a working knowledge of the OSHA.gov website, safety procedures, hazardous working conditions and how an inspection is done.

*The goal is to help the individual recognize job site hazards and unsafe working conditions to help reduce accidents.*
