

Fast Track Your Educational Goals

Thanks to the **Universal Transfer Credit Agreement (UCTA)**, you can fast track your educational goals this summer by taking general education credits at Gateway that may transfer to another college or university and satisfy the general education requirements for your major. Prerequisites can be met through Multiple Measures including; ACT and Accuplacer testing, past college credit or high school GPA. Details can be found at gtc.edu/multiple-measures.

Whether you're a high school student looking to earn credits before heading off to college or you're a current college student looking to keep your momentum going while home for the summer, we offer a wide range of affordable classes that will earn you credit toward your degree at Gateway or a wide range of other colleges and universities.

Our **2020 Summer Semester begins May 26, 2020 and goes through August 15** in an accelerated 12-week format, so you can start and end your summer classes without conflicting with your spring or fall coursework.

Get Started

High School Students: If you meet the prerequisites, you can get a head start on your educational goals by taking Gateway courses this summer and earning college credit early. These courses will prepare you to attend Gateway or other colleges after graduation. High school seniors, be sure to check with your college before registering to confirm which credits will transfer to your program of study. **Register as a Single Course Taker at gtc.edu/single-course.**

College Students: With options to learn online this summer, Gateway's courses are a great option to keep your educational goals on track. Check with your college before registering to confirm which credits will transfer to your current program. **When you're ready, complete the [guest student application at gtc.edu/guest](https://gtc.edu/guest).**

	Credits	Applicable Gateway Programs						
	Credits	Accounting	Business Management	Criminal Justice	Electrical Engineering Technology	Human Services	IT - Data Analytics Specialist	Nursing
