Graphic Design (10-201-1)

Graphic Design educates students in the practice of design, illustration, and reproductive processes related to the print and audio visual media. Course work includes basic illustration, visual communication, and reproductive concepts with emphasis on development in computer graphic skills. The program includes certain aspects of commercial art and communication/computer graphics, with emphasis on skills training required for the increasingly technological focus of graphic design in today's workplace.

Program Learning Outcomes

Graduates will be able to:

1. Apply principles of design to develop strategic marketing and communication products and services.
2. Demonstrate proficiency in the use of design software, tools, and technology.
3. Implement creative solutions from concept through completion using a formal process.
4. Apply effective legal and ethical business practices and project management skills.
5. Communicate artwork rationale in formal and informal settings.

Essential Career Competencies

Gateway's six essential career competencies are the general attitudes and skills promoted and assessed by all programs. All Gateway graduates will develop skills in:

- Communication Competence

Notes

1. Satisfactory college placement results (through multiple measures or placement test scores) or successful remediation is required prior to enrollment. See an advisor for details.
2. Gateway has many articulation agreements with four-year colleges and universities. If you are planning on transferring to a four-year institution please review this information online at gtc.edu/transfer. If an institution is not listed, please contact them directly to see which courses transfer. You may also contact your advisor for more information.
3. A credit for prior learning assessment is available for this course. For more information, please contact cfpl@gtc.edu.
4. The Graphic Design program at Gateway Technical College is a laptop program. Every student enrolled in the program should acquire a laptop that meets recommended specifications to utilize inside and outside of the classroom. To best meet the demands of the industry, students will be subscribing to and working with the Adobe Creative Cloud. To ensure optimum hardware performance we recommend meeting the computer specifications as outlined on the Adobe Creative Cloud website: <http://helpx.adobe.com/creative-cloud/system-requirements.html>
