

2017-2018 Certificate

Certificate: **SUSTAINABILITY ACCOUNTING (90-101-3)**

Credits: **10 Credits**

Description: This certificate will enable those who complete it to develop an appreciation for working to the benefit of their community, both locally and in the larger world-wide sense. Students will examine the factors that lead to the long-term sustainability of an organization. Traditionally, accounting programs focus on teaching for-profit financial and management accounting with the idea of maximizing profit and don't take into account the impact of those practices on the stakeholders in their community.

Related Program: Accounting

Campuses Available: Elkhorn, Kenosha, Racine and Online
